

**Amendments to the Specification:**

Please amend the Specification at paragraph 41 as follows:

From the foregoing, it will be appreciated that, although specific embodiments of the invention have been described herein for purposes of illustration, various modifications may be made without deviating from the spirit and scope of the invention. For example, embodiments of the canard arrangement can be implemented on aircraft having configurations different than that shown in Figure 1. Other arrangements of structures having characteristics in common with those disclosed herein are included in the following pending U.S. Applications, both of which are filed concurrently herewith and both of which are incorporated herein by reference: 10/689,972 entitled "Method and Apparatus for Installing and Actuating Movable Airtails, Including Canards," (Attorney Docket No. 03004.8075US1); and 10/690,285 entitled "Method and Apparatus for Rotatably Supporting Movable Components, Including Canards," (Attorney Docket No. 03004.8079US1). Accordingly, the invention is not limited except as by the appended claims.
